

Experiment 7

AIM: To Create Scrum Board for Scrum Master using JIRA Tool.

Theory:

To create a Scrum Board for a Scrum Master using the JIRA tool, you need to follow these steps:

Create a Scrum Project in JIRA:

Log in to your JIRA account and select a template from the library, choosing the Scrum template.

Once the project is created, you will land on the empty backlog, also known as the product backlog, containing a list of potential work items for the project

Create User Stories or Tasks in the Backlog:

In JIRA, work items like user stories, tasks, and bugs are referred to as "issues." Create user stories using the quick create option on the backlog.

User stories describe work items in a non-technical language from a user's perspective, following the format: "As a {type of user}, I want {goal} so that I {receive benefit}"

Prioritize User Stories in the Backlog:

After creating user stories, prioritize them by ranking or dragging and dropping them in the order they should be worked on.

The product owner usually prioritizes user stories, and the development team estimates the effort required to complete each story

Create a Scrum Board in JIRA:

Click on Search > View all boards and then Create board.

Select the board type as Scrum and choose whether to start with a new project template or add the board to existing projects.

Configure columns and quick filters to reflect your team's process and focus on specific issues quickly

Navigate Between Boards:

Use the board switcher located in the left-hand menu under the project name to move between different boards in JIRA

By following these steps, a Scrum Master can effectively create a Scrum Board in JIRA, enabling efficient management of tasks, user stories, and sprints within the agile project management framework.

The image displays three screenshots of the Jira interface for the project 'TE-SEPM-PROJECT'. Each screenshot shows a different view of the project's tasks and progress.

Top Screenshot: Timeline View

- Left Sidebar:** Navigation menu with options like 'For you', 'Recent', 'Starred', 'Apps', 'Plans', 'Projects', and 'Filters'.
- Project Header:** 'TE-SEPM-PROJECT' with tabs for Summary, Timeline, Backlog, Board, Calendar, List, Forms, Issues, Code, and More.
- Timeline View:** A Gantt chart showing sprints. Sprints include 'TSP-1 Project management and review', 'TSP-2 Check Documentation', and 'TSP-3 Final Code check'. A dropdown menu is open over the timeline, showing options: 'Project management and review code', 'Check Documentation', and 'Final Code check'.
- Details Panel:** Shows assignee 'HITAIN SHROFF', labels, parent, team, and start date 'Feb 25, 2025'.
- Right Panel:** 'Quickstart' section with steps like 'Create a project', 'Map out your project goals', 'Identify small chunks of work', 'Monitor and manage risk', and 'Create an issue'.

Middle Screenshot: Calendar View

- Calendar View:** A calendar for March 2025. Tasks are plotted as colored bars. 'TSP-3 Final Code check' is highlighted in red on March 3rd.
- Unscheduled work Panel:** A list of tasks to be scheduled, including 'SCRUM CHECK TSP-4', 'Check Documentation TSP-2', and 'Project management and review code TSP-1'.

Bottom Screenshot: Calendar View (Duplicate)

This screenshot is identical to the middle one, showing the calendar view with 'TSP-3 Final Code check' highlighted.
